Sinopsis

ISBN: 9781560559832

More than 75 of the most common surgical procedures performed by ophthalmologists are described step by step in this comprehensive textbook.

The book details the skills needed for surgical proficiency, and includes more than 500 images for reference.

This is the second volume of a pair of books intended to improve surgical training in ophthalmology residency programs. This book is also designed to serve as a review for more senior residents and beginning surgeons.
