All UK pharmacy trainees must take the registration exam at the end of the pre-registration year in order to practice pharmacy in Great Britain.

Written by a former question writer for the Society Registration exam, Registration Exam Questions aims to help trainees with their revision by providing a comprehensive list of open- and closed-book questions on topics that are likely to be covered in the exam. The questions are of a similar style to the registration examination. It includes:

450 open- and closed-book questions

questions based on law, ethics, clinical pharmacy and therapeutic aspects of the registration examination syllabus

descriptive answers, giving the reasoning behind the answers.

The second title in the Tomorrow's Pharmacist series, Registration Exam Questions will be indispensable to pre-registration trainees and pharmacy students to help them prepare for their future career.
