Introducing the stunning third volume of Philip Pullman's critically acclaimed fantasy trilogy, His Dark Materials. The Amber Spyglass brings the intrigue of The Golden Compass and The Subtle Knife to a heartstopping conclusion, marking the final volume as the most powerful of the trilogy.

Along with the return of Lyra, Will, Mrs. Coulter, Lord Asriel, Dr. Mary Malone, and Iorek Brynson the armored bear comes a host of new characters: the Mulefa, mysterious wheeled creatures with the power to see Dust; Chevalier Tialys and Lady Salmakia, hand-high spy-masters to Lord Asriel; and Metatron, a fierce and mighty angel. So, too, come startling revelations: the painful price Lyra must pay to walk through the land of the dead, the haunting power of Dr. Malone's amber spyglass, and the names of who will live -- and who will die -- for love. And all the while, war rages with the Kingdom of Heaven, a brutal battle that -- in its shocking outcome -- will uncover the secret of Dust.

In The Amber Spyglass, Philip Pullman deftly weaves the cliffhangers and mysteries of The Golden Compass and The Subtle Knife into an earth-shattering conclusion -- and confirms his fantasy trilogy as an undoubted and enduring classic.
