Based on research and first-person interviews with 125 of the top leaders in business, Bill George-the highly respected former CEO of Medtronic and current Harvard Business School professor- and coauthor Peter Sims, describe how anyone can become an authentic leader. In this leadership tour de force, George presents many surprising conclusions as to what makes a great leader, some of which are actually contrary to previous research. The book presents a concrete and comprehensive program for leadership success, showing readers how to create their own Personal Leadership Development Plan centered on five key areas:

Knowing your authentic self

Orienting your moral compass

Understanding your motivations

Building your support team

Staying grounded by integrating all aspects of your life
