Sinopsis

ISBN: 9780521893442

the book is a very accurate description of the movement towards the abolition of the death penalty in international law ... offers the reader a praiseworthy guide to the field to which it is dedicated. It would be very useful for academics, as well as human rights activists. In addition, the preface by the President of the International Court of Justice, as well as the extensive normative material included in the book as appendices, undoubtedly increase its instructive and learning value for all it has been designed for.'
