Sinopsis

ISBN: 9781412929134

From successive cohorts of graduate students, Clough and Nutbrown (both education, U of Sheffield) keep getting the same questions, so decided to write down some answers. They distinguish between methods and methodology, and pay little attention to the first. Rather they focus on developing a critical research approach generally, on the more radical and profound processes of enquiry that lie behind the selection or creation of any particular research method for a thesis or dissertation.
