Sinopsis

ISBN: 9781412957571

This volume is part of a three-volume set that developed out of 1994's Handbook of Qualitative Research, also by Denzin (communications, U. of Illinois at Urbana-Champaign) and Lincoln (higher education, Texas A&M U.). Seventeen chapters discuss paradigms, strategies, and methods of interviews, observations, and archival research. They then discuss analysis methods, including those assisted by computer methodologies. Chapters emphasize historical development of and controversies within methodologies.
