As the pressure on teachers to become technology specialists accumulates, it is critical that teacher educators, current teachers, and preservice teaching professionals pursue the accumulation of knowledge on the applications of technology such as digital graphics, desktop publishing, video technology, multimedia, and internet applications.

Technology Application Competencies for K-12 Teachers aids preservice and current teachers, graduate students, technology specialists, and teacher educators to better understand methods of integrating technology into their curricula. This authoritative text answers the demand for cutting-edge practical knowledge of technological principles to be applied in the planning, organization, delivery, and evaluation of instruction in today's classroom.
