Grade 3-5-- A portion of the royalties from this book are being donated to a British charity, but that's not a strong enough reason to buy it. Four movable pictures (the sort that rotate to dissolve from one scene to another), plus a scattering of tiny, hard-to-find flaps, accompany an incoherently abridged text. The slightly antique-looking art is crudely executed; small figures with distorted or indistinct features change relative sizes from spread to spread, and are placed, in most scenes, with no discernible logic.
