Sinopsis

ISBN: 9780618660711

Teaching Strategies is an introductory core text known for its practical, applied help with commonly used classroom teaching strategies and tactics. Accommodating both traditional and non-traditional education students as well as site-based teacher education programs, the text focuses on topics such as lesson-planning, questioning, and small-group and cooperative-learning strategies. Continuing its hallmark strength, solid coverage of teaching strategies and applications, this new edition includes even more teaching applications and a new feature that highlights real-life voices from the field.
