Sinopsis

ISBN: 9780521536806

The Cambridge Companion to American Modernism provides a comprehensive and authoritative overview of American literary modernism from 1890 to 1939. These original essays by twelve distinguished scholars of international reputation offer critical overviews of the major genres, literary culture, and social contexts that define the current state of Modern American literature and cultural studies. Among the diverse topics covered are nationalism, race, gender and the impact of music and visual arts on literary modernism, as well as overviews of the achievements of American modernism in fiction, poetry and drama. The book concludes with a chapter on modern American criticism. An essential reference guide to the field, the Companion offers readers a chronology of key events and publication dates covering the first half of the twentieth century in the United States, and an up-to-date bibliography of further reading organized by chapter topics.
