Bridging theory and practice in curriculum development, *Course Design* provides teachers with invaluable concepts and skills for planning effective courses. The goal of the book is to help the reader become a flexible yet systematic curriculum planner by developing a greater awareness of the important decisions to be made and the alternative options available at each stage of decision making. The authors begin with a set of guidelines for developing a course and then lead readers through a step-by-step process of developing an actual course or unit of their own. The seventh edition features significant new coverage of state and national standards, and of multiple intelligences.
