Sinopsis

ISBN: 9786074425284

Chemistry 1 has been written with the student in mind. What originally was supposed to be a bunch of class notes, now it is book intended to simulate the feel of one-on-one sessions with a professor. Throughout this book you will find tables and images that illustrate important points in the text. Also, selected reading about contemporary applications and numerous practice and review questions have been provided to help the student become more familiar with the material and more confident about the subject.
