CCNP Implementing Secured Converged Wide-Area Networks (ISCW 642-825) Lab Portfolio

David Kotfila ¦ Joshua Moorhouse ¦ Ross G. Wolfson, CCIE® No. 16696

CCNP Implementing Secured Converged Wide-Area Networks (ISCW 642-825) Lab Portfolio provides you with opportunities for hands-on practice to secure and expand the reach of an enterprise-class network to teleworkers and branch sites.

The labs reinforce your understanding of how to secure and expand the reach of an enterprise network with a focus on VPN configuration and securing network access to remote sites. The book's primary focus includes teleworker configuration and access, Frame Mode MPLS, site-to-site IPsec VPN, Cisco® EZVPN, strategies used to mitigate network attacks, Cisco device hardening, and Cisco IOS® firewall features.

Those preparing for the Implementing Secured Converged Wide-Area Networks (ISCW 642-825) certification exam should work through this book cover to cover. If you need to quickly review configuration examples, you can go directly to the relevant chapter.

CCNP Implementing Secured Converged Wide-Area Networks (ISCW 642-825) Lab Portfolio includes
27 Labs built to support v5 of the Implementing Secured Converged Wide-Area Networks course within the Cisco Networking Academy® curriculum providing ample opportunity for practice.
2 Challenge and Troubleshooting Labs added to the core curriculum labs to test your mastery of the topics.
2 Case Studies to give you a taste of what is involved in a fully functioning network covering all the technologies taught in this course. Even if you do not have the actual equipment to configure these more complex topologies, it is worth reading through these labs to expand your thinking into more complex networking solutions.

David Kotfila, CCNP®, CCAI, is the director of the Cisco Networking Academy at Rensselaer Polytechnic Institute (RPI), Troy, New York.

Joshua Moorhouse, CCNP, recently graduated from Rensselaer Polytechnic Institute with a bachelor of science degree in computer science, where he also worked as a teaching assistant in the Cisco Networking Academy. He currently works as a network engineer at Factset Research Systems.

Ross Wolfson, CCIE® No. 16696, recently graduated from Rensselaer Polytechnic Institute with a bachelor of science degree in computer science. He currently works as a network engineer at Factset Research Systems.
