Sinopsis

ISBN: 9780439389013

Colorfully illustrated books use fun, familiar (and yummy!) candies to introduce young readers to basic mathematical concepts. Instructive text and colorful illustrations appeal to young children as they duplicate the activities.

Author Jerry Pallotta and illustrator Rob Bolster use a variety of different apples to teach kids all about fractions in this innovative and enjoyable book. Playfull elves demonstrate how to divide apples into halves, thirds, fourths, and more. Young readers will also learn about varieties of apples, including Golden and Red Delicious, Granny Smiths, Cortlands, and even Asian Pears.
