Sinopsis

ISBN: 9780439441469

Usborne Internet-linked books contain descriptions of Web sites which take readers further into each subject in a fun and informative way.

In a look at physics in everyday life, energy is presented here with answers to questions such as where energy comes from, why things fall down instead of up, and how energy is turned into power in our homes. Includes descriptions of fun and informative Web sites which take readers further into the subject.
