It's a comprehensive introduction to the British tradition of cultural studies. Turner offers an accessible overview of the central themes that have informed British cultural studies: language, semiotics, Marxism and ideology, individualism, subjectivity and discourse. Beginning with a history of cultural studies, Turner discusses the work of such pioneers as Raymond Williams, Richard Hoggart, E. P. Thompson, Stuart Hall and the Birmingham Centre for Contemporary Cultural Studies. He then explores the central theorists and categories of British cultural studies: texts and contexts; audience; everyday life; ideology; politics, gender and race.
