Grammar Corner: A Natural Approach is a supplementary grammar series that can be used to accompany any primary-level EFL course, or as a main grammar-driven primary course. Grammar Corner presents a grammar curriculum central to mastery of English in a natural way. The grammar concepts and activities are designed to meet the needs of elementary school students from seven to eleven years old. Age-appropriate grammar structures and activities, as well as constant linking and cumulative reviews, ensure that students reuse the grammar concepts and build on them. Achievable but challenging grammar targets help students maintain a sense of interest and motivation.
