Sinopsis

ISBN: 9781604267327

Even in the best of times, political debate about world events is rife with polarizing disagreement. In an increasingly wired world, how can we help students separate fact from opinion, to parse arguments and apply reasoned analysis? With its even-handed presentation of realism, liberalism, constructivism, and critical theory and comprehensive coverage of all of the major concepts in IR, *Perspectives on International Relations* gives students the set of analytical tools they need to become effective readers and thinkers about the world's most urgent issues.
