Sinopsis

ISBN: 9781569903216

This bestseller examines the main components of extruders used for processing thermoplastics, including drives, reducers, bearings, screws, dies, screens, heating and cooling systems, and instrumentation and control. Basic principles, polymer properties, applications, and analysis of processes are presented. Partial Contents: Extrusion Machinery. Process Analysis. Fundamental Principles. Polymer Properties. Applications. Extruder Screw Design. Die Design. Twin Screw Extruders. Troubleshooting.
