The incredible splendors of some of the worlds' most recognized architectural feats are brought to life within the pages of Origami Architecture. With this book, some card stock paper, and a hobby knife, anyone can build spectacular re-creation's of the most famous buildings in the world. It gives instructions and templates for 16 buildings, including the Parthenon, the White House, the Eiffel Tower, the Chrysler building, and the Forbidden City. There are over 900 photographs detailing the cutting and assembling of the pieces, most without using glue or tape. Once the structure is attached to the base not only will does it look amazing, but it can be folded up and taken anywhere. For the would-be architect, the papercraft hobbyist, or a model builder, Origami Architecture will provide hours of activity with impressive results.
