The East and Southeast Asia region constitutes the world's most compelling theatre of accelerated globalization and industrial restructuring. Following a spectacular realization of the 'industrialization paradigm' and a period of services-led growth, the early twenty-first century economic landscape among leading Asian states now comprises a burgeoning 'New Economy' spectrum of the most advanced industrial trajectories, including finance, the knowledge economy and the 'new cultural economy'. In an agenda-setting volume, *New Economic Spaces in Asian Cities* draws on stimulating research conducted by a new generation of urban scholars to generate critical analysis and theoretical insights on the New Economy phenomenon within Asia.
