An internationally renowned origami master recaptures the prehistoric allure of dinosaurs with this new series of original models. Twenty famous and lesser-known creatures from the Mesozoic era include a tyrannosaurus, apatosaurus, pterodactylus, dimetrodon, quetzalcoatlus, and protoceratops.

John Montroll designed these striking models with beginning paperfolders in mind. Based on his famous single-square, no-cuts, no-glue approach, they range from the very easy to the low-intermediate level. Each model features helpful diagrams and easy-to-follow instructions.
