This book is a Developer?s Guide, covering the ins and outs of developing Java EE 5 applications deployed to the standards-compliant, high performance GlassFish application server. This book is aimed at Java developers wishing to become proficient with Java EE 5, who are expected

to have some experience with Java and to have developed and deployed applications in the past, but need no previous knowledge of Java EE or J2EE. It teaches the reader how to use GlassFish to develop and deploy applications
