Social intelligence is defined as the ability to be aware of relevant social situational contexts; to deal with the contexts or challenges effectively; to understand others' concerns, feelings, and emotional states; and to interact appropriately in social situations and build and maintain positive relationships with others. Intelligence, Sustainability, and Strategic Issues in Management analytically discusses this concept within administrative and entrepreneurial managerial business environments. The volume opens with a study of academic department chairs' social intelligence and faculty members' satisfaction with annual evaluation of teaching and research at a US university
