Sinopsis

ISBN: 9780393335354

Filled with dramatic revelations, "The Lost Spy" may be the most important American spy story to come along in a generation, exploring the life and death of Isaiah Oggins, one of the first Americans to spy for the Soviets. of illustrations.

For half a century, the case of Isaiah Oggins, a 1920s New York intellectual brutally murdered in 1947 on Stalin's orders, remained hidden in the secret files of the Soviet and American intelligence services-a footnote buried in the rubble of the Cold War. It surfaced briefly in 1992, when Boris Yeltsin handed over a dossier to the White House, but the full story of what happened remained a mystery. After eight years of international sleuthing, Andrew Meier at last reveals the truth in The Lost Spy: Oggins was one of the first Americans to spy for the Soviets.
